NB: The major issue of copper coins began in 1678 at the rate of 400 pieces for one *yang* (tael) of silver (copper coins 400 pieces = 37.5 grams silver = 50 kilograms white rice in 1678). The varieties of silver were:

Ch'ônŭn (天銀) one tael = Chinese copper 1000 pieces = Korean copper 318 pieces (1799)

Sisang'ŭn (市上銀) one tael = Chinese copper 1150 pieces = Korean copper 420 pieces (1799)

Chōng'ŭn (丁銀) one tael Chinese copper 800 pieces = Korean copper 300 pieces (1799)
